What Is Interest Type?

Take a moment to ask, "What do I enjoy?"

"Interests" are those activities you do for fun or enjoyment, including what you like to read, the TV shows and movies you like to watch, events you like to attend, and the kind of people you admire and like to be with.

Interest is important in choosing a career or occupation because interest keeps you motivated and engaged in your work. Since work takes up most of your time during a day and week, if you have no interest in what you are doing, you will most likely become unhappy and unproductive. This type of people likes to work with data – facts, numbers, and files. They like to organize information to help things run smoothly. They like to carry out business and clerical projects in structured ways paying attention to detail.
